Are you a full time astrology witch? The tarot card-reading, crystal ball-wielding, star-mapping kind? Or just one of the normies who insists astrology is a hoax, but reads their sign's forecast without fail, whenever they come across horoscopes? The Zodiac Christmas Collection from Spectrum is here and, whatever your vibe, you're going to want to work out your birth element. The limited edition range of brushes comes in four variations, for the astrological elements: fire, air, earth and water. The velvet bags feature a unique constellation design and come in the colours amber, cobalt, teal and sand off-black. Containing eight golden-engraved brushes in a range of sizes, you can keep your makeup looking fire all day, no matter what your sign.

The collection is on sale now, available at SPECTRUMCOLLECTIONS.COM
