"Days off are strange for me. I try to stay as far away from airports as possible. I actually enjoy having the time to do those small mundane but essential activities that everyone does on a daily basis...food shopping, going to the gym, having time to read the paper in my own kitchen in the morning. I also take this time to catch up with family and friends. If I don't take the opportunity, it's easy to lose contact with the people closest to me." -David Gandy
