ey say: Dubbed the “skin booster”,
mesotherapy is one of the most sought-after
tural and nonsurgical treatments, which
mediately delivers hydration and aids anti-
eiging. See a dramatic reduction in the
pearance of fine lines and wrinkles.

e say: The superficialist Vaishaly is so well
own for her iconic treatments that she is one of
a few practitioners referred to by first name
one. Her mesotherapy treatment is unlike any
er, thanks to her signature “nappage”
chnique. Whatever your skincare concerns,
ishaly will concoct a bespoke mixture of serums

siccated skin — and then tiny needles are gently
oped over the contours of your face to help the

oked refreshed, glowing, my perma-furrowed
ow was smoothed and, even better, the results
ted for weeks. I’m addicted. **Vanessa Jolly**
